

LØITEN BRÆNDERI

Linie Aquavit is world famous. After all, we ship it to Australia and back before we drink it.

But Norwegian Aquavit is more. Much more!

In fact, there are more than 100 different brands to choose from, and they are wildly different, because we spice and mature them to serve very different and specific purposes. Moreover, there is no better place to learn about Norwegian aquavit than the home to Løiten Linie, the Løiten Distillery. Let our expert lead you through the unique history, the exiting bouquets and the great tastes of our internationally renowned liquor! Løiten distillery also houses a variety of shops and exhibitions. Largest among them is Løiten Lys, Norway's leading candle factory. Its lavish exhibition halls sport an exceptional range of handmade candles and accessories.
